VOL. LXXXVI. NO. 31. VICTORIA, B. C., TUESDAY, JULY 16, 1901. FORTY-THIRD YEAR

Headaches and Eyestrain

Many who for years have suffered intensely from chronic sick headaches, using drugs of all kinds without benefit, have found immediate and permanent relief in properly adjusted glasses, because eye-strain was the cause.

We Remove the Cause and the Cure is Lasting.

It costs you nothing to find out whether or not glasses will relieve you. If you do not need them we will tell you. If you do we can supply you, no matter how bad the defect, and satisfaction assured. Eyes tested free. Try us.

News Of Stampede

Wild Excitement Over Coarse Gold Found on the Big Salmon.

Sixteen Big Nuggets Set the White Horse Prospectors on Fire.

Steamer Danube Brings Latest Word of Rush for the New District.

Steamer Danube arrived from Skagway last night. She did not call at Vancouver, having brought no passengers. News was brought by the Danube of a rich strike in Big Salmon district. A special to the Skagway Alaskan from White Horse on July 10 says: Great excitement prevails here over a new strike in the Big Salmon river district. The new Eldorado is situated on Lake creek, twenty miles from Hootalingna. The owners of the first rich strike in the new district are C. C. Runner and Mr. Rosenberg, of Skagway. They display sixteen large nuggets taken from their claim. Redrock was struck at six feet and it is very rich in coarse gold. The discoverer is Jim Sale, better known as "Sour Dough Jim." The steamer Bailie leaves tomorrow morning with a big load of stampedeers for the new district. The fare for the round trip is \$40. George Miller, who tore down the Canadian flag from the customs house at Skagway was brought back from Fort Yukon on a warrant sworn out by E. C. Hawkins of the White Pass & Yukon railway, but when the case came to trial, Miller was dismissed at the request of the prosecution.

The steamer Dawson arrived at White Horse on July 10 from Dawson, with twelve passengers and one consignment of \$500,000 in dust for the Canadian Bank of Commerce. Among the twelve passengers are some who will greatly augment the Dawson's treasure. The same day the steamer Yukoner tied up to the dock at White Horse, with no passengers as she left but a few hours after the Dawson, but had another consignment of \$500,000 for the Canadian Bank of Commerce. Last season the Canadian Bank of Commerce made all its shipments in \$750,000 lots, but this year the dust is being sent out in half million dollar consignments.

A despatch from Dawson to the Skagway News dated July 10, says: The police raided the O'Brien club yesterday and confiscated the gambling apparatus and \$950 in cash. Capt. Scarth and Sergeant Beys, with five policemen forced an entrance. This is the first police raid in Dawson, and has occasioned much talk.

Jack Marchbank, the proprietor, and J. C. Douglas, O. H. Ingram and John Anderson, gamblers, were arrested. The proprietor was fined \$100 and costs and the gamblers each \$25 and costs.

Lawyer McKay, who appeared for the defendants, strongly protested, but without avail, against the confiscation of the money.

A new place strike has been made on the east side of Lynn canal, a short distance below Haines. Four groups of claims, each containing 100 acres, were staked on the Kolenta river, which enters the canal near Haines. Nothing but prospects have so far been found.

BRITISH BATTLESHIP'S.
Electricity to Be Used for Some of the Turret Mechanism.

London, July 15.—Speaking today in the House of Commons, H. O. Arnold Forster, financial secretary to the admiralty, said that electricity had not yet been applied to the turret mechanism of British battleships, and that the government was still assisting with the results given by hydraulic power in this connection. Mr. Arnold Forster further said that electric gun mechanism would be incorporated in some of the warships now in course of construction.

UNHAPPY CHINA.
Hundreds of Lives Lost in Flood—To Destroy Forts.

Shanghai, July 15.—There have been disastrous floods on the Yang-tse river near Hankow, in which hundreds of lives were lost.

Tien Tsin, July 15.—The military commanders have directed the provisional government of Tien Tsin to undertake the destruction of the Taku forts and the government has promised to attempt the receipt of a military guard to protect the western end of the task.

MANITOBA TORNADO.
Sunday Blow Lays Crops and Scatters Lumber Piles.

Winnipeg, Man., July 15.—(Special.)—Damage to the extent of a hundred thousand dollars has been done to crops and the fair buildings on Carberry Plains near Pleasant Point district. Lumber mills at Rat Portage and Norman also suffered by a tornado on Sunday; the lumber being scattered in all directions.

CONNOR'S FAILURE.
Montreal Harbor Board Declares His Big Deposit Forfeited.

Montreal, July 15.—The harbor board this morning instructed the city attorney to take steps to secure the forfeiture of \$50,000 deposit made by W. J. Connor, of Buffalo, as security for carrying out a grain elevator contract, which Connor failed to do. A big lawsuit will probably result.

END OF STRIKE.
Two Thousand Machinists in Cincinnati Return to Work.

Cincinnati, Ohio, July 15.—The two thousand machinists who have been on strike here since May 20 returned to work today. This practically ends the strike.

ARRESTED FOR FORGERY.
French Count and Woman Wanted in France for Large Amount.

Montreal, July 15.—Louis Gagnier alias Count Raymond de Gallardie and a woman named Rene Vallont are under arrest here charged with forgery. The amount is 30,000 francs. The forgery was committed at Nantes, France.

COLOMBIAN REBELS.
Troops Turn on the Government and Desert to Mountains.

Kingston, Ja., July 15.—A letter received here from a prominent merchant in Cartagena, Colombia, reports a serious outbreak among the Colombian troops in the outskirts of that city last week. The soldiers were dissatisfied and threatened to desert. Monday they attempted to break from their barracks and attacked the guard. A bitter fight followed in which seven of the guards were killed and several wounded on each side. This letter further says a large number of mutineers have escaped and it is expected they will join the rebels, and that the indications are the revolution will continue longer, and with renewed energy on the part of the Liberals. Another letter received by Clarence, the refugee chief of the Mosquito Indians, reports a collision a fortnight ago between Nicaraguan soldiers and Mosquito Indians at a place called Haul-over.

ACCIDENTS.
Three Children Struck by Railway Trains—New Brunswick Drowning.

Napawee, Ont., July 15.—(Special.)—Fletcher Hartman, of Odessa, mail boy, and Georgie Kilgallon, a girl of 11, attempted to cross the track with the mail wagon in front of a train going west. The train crashed into them. The girl was fatally injured, dying within an hour; the boy may recover.

Oshawa, Ont., July 15.—(Special.)—Wilfrid Gifford, the two-year-old son of farmer Hiram Gifford, was struck by a train on Saturday and injured so badly that he died an hour later.

Moncton, N. B., July 15.—(Special.)—John Taylor, aged 15, was drowned while bathing in Robinson's creek.

Progress of Pacific Cable

Official Statement in Imperial House As to What is Being Done.

No Doubt of Ability of Contractors to Complete Line Next Year.

London, July 15.—In the House of Commons today J. Austin Chamberlain, financial secretary to the treasury, detailing the progress of the Pacific cable, said that several sectional cable houses had already been constructed and sent out and were being erected at the various landing places. The survey had been satisfactorily completed over 1,500 miles of the proposed route, and the manufacture of cable would begin this week.

Mr. Chamberlain said landing sites had been selected on Queensland, New Zealand, Norfolk Island, and at Vancouver Island, and that the cable board was satisfied as to the ability of the contractors to complete the work by the end of 1902.

HAVE GONE TO THEIR LIMIT

Manager McNicoll Says C. P. R. Will Make No More Concessions.

From Our Own Correspondent.

Winnipeg, July 15.—Manager McNicoll of the C. P. R. expects to leave tomorrow for the West. This morning he was waited on by a deputation of men who, it is understood, represent the engineers. What was the result of the conference is not known.

"I have not made any arrangements," said Mr. McNicoll, with reference to meeting the strikers, nor have they asked to see me. To me," continued Mr. McNicoll, speaking with some heat, "it seems a strange thing that a whole body of men can be kept from their work and whereof to buy their daily bread by a pained of men forming a committee, after receiving practically what they asked for. We have offered to make them very liberal concessions amounting to \$100,000 yearly over what we are paying them now. The committee have admitted that the C. P. R. trackmen are getting better paid than any other road. There were some men that they objected to and we adjusted them, and now we have gone just exactly as far as we intend. We have made all the concessions we can afford to."

The manager said two Imperial Limited trains will run each way next year.

Bathwell, Man., July 15.—The local committee of striking trackmen on the southwestern branch of the Canadian Pacific railway are getting very restless at the large number of men that are returning and being replaced on the different divisions in Southern Manitoba. At a meeting here today at which about twenty of them were present, it was decided that a pressing request be sent to Montreal instructing the committee there that it is necessary that the strike be ended in a day or two. The feeling here now is that the company's advances should be accepted so as to save the older employees their places.

RIOTS IN GALICIA.
People Throw Up Barriadas and Many Are Wounded in the Fight.

London, July 15.—More than one hundred persons, including troops and police, were wounded today (Monday) in an encounter at Lemberg, says the Vienna correspondent of the Daily Express, growing out of an attempt by the police to stop street parades held in a demonstration on behalf of the unemployed. The mob threw up barriadas and defied the police. The troops were called out and charged again and again, using bayonets and bullets. Ultimately the demonstrators were dispersed. Lemberg is strongly guarded by troops, but it is reported that the mob is preparing for another fight during the night.

GET IT WARM.
Northern New York Still in the Warm Wave.

Watertown, N. Y., July 15.—Northern New York is again in the grasp of a hot wave, worse than the previous one. Sunday the thermometer registered 90 in the shade and over 100 in the sun. To-day is a little cooler owing to a fresh breeze which is blowing.

VILLAGE BADLY BURNED.
Children Tried to Smoke on Sunday With Ill-Effect.

Richmond, Que., July 15.—(Special.)—The Grand Trunk railway station, freight shed and twenty-two dwelling houses at Warwick, twenty miles from here, were totally destroyed by fire yesterday afternoon while the entire population was at church. The railway line was destroyed for a considerable distance, and traffic delayed some hours. The residents had not time to save any of their effects. The loss is estimated at \$75,000. There was practically no insurance. The fire is believed to have originated by children smoking by stealth on the railway premises.

Quiet On The Fraser

Sunday Night Passed Off Without any Disturbances to Report.

Preliminary Hearing Continued of Kidnapping Charge Against F. Rogers.

Two Japanese Who Disappeared on Wednesday Night Still Not Heard of.

From Our Own Correspondent.

Vancouver, July 15.—There is little news in the fishery question. There was no disturbances whatever on the river last night, and it is thought the strikers have discontinued intimidation tactics owing to the activity of Supt. Hussey, of the provincial police, and the knowledge conveyed to the strikers by the action of the courts that kidnapping and intimidation on the high seas is so serious a crime as scarcely to admit of bail.

The hearing of Frank Rogers, the strike leader, charged with kidnapping Japs, continued all day. The court room was uncomfortably crowded, and in spite of the presence of many police, the Japs in the room were hustled by some of the white fishermen and called bad names. Any incipient disturbance, however, was promptly checked.

Rogers was identified by all the kidnapped Japs as the man who directed the conspiracy and recognized, according to witnesses by the boat loads of white strikers as their leader. Mr. Mykule, the secretary of the Japanese Fishermen's Association, stated to a Colonist correspondent tonight that there were still two Japanese from the Fraser river cannery not accounted for, and it was the belief that they had been thrown into the river by the strikers. They were out with the boat on the 10th of July, the memorable night when the kidnapping took place, and when so many reports of fire arms were heard in the darkness.

In referring to the statement made at the fishermen's meeting on Saturday, that the majority of the Japanese had obtained their naturalization by fraud, Mr. Mykule claimed that it was not so; that no proof had ever been given that naturalization papers had been fraudulently secured, and unless there was proof, it was useless to make the accusation.

ROSSLAND IS QUIET.
Many Men on Strike Are Preparing to Leave the Camp.

Rossland, B. C., July 15.—There was no strike work on the half dollar situation for the last 48 hours. Today is payday in the camp. About a quarter of a million was distributed. The War Eagle and Centre Star pay the July roll in a day or two.

The West Kootenay Power Co. has suspended work on the half dollar situation in addition to the Bonington Falls plant. Their market for the former is Rossland and if the conditions here are unsettled they refuse to go ahead with the expenditure of the contemplated appropriation. Over 100 men are out of work there.

A big miners picnic takes place tomorrow, with procession, addresses, and sports. After the picnic many men will leave the city to seek work in other camps. A big exodus is expected before the end of the week.

There is nothing in sight to indicate a settlement. The Board of Trade has not received a reply to their letter to the union. Everything is quiet and orderly.

AT BISLEY.
Scores Made by Canadians—Trouble on the Range.

Toronto, July 15.—The Toronto Telegram's London cable says the Canadians in the first two ranges of the Queen's scored as follows: Sergt. Bodley, 61 out of a possible 70; Sgt. Fleming, 62; Sergeant Major, 65; Sergeant, 65; Richardson, 60. The third range of the first stage will be shot tomorrow. The top score of the Canadians is Pte. Spence, Toronto, 68.

Staff-Sergt. Crowe, Guelph, won third place in the Graphic. Col. Corat, Richardson, won 31st in the Daily Telegraph, winning 22.

Pte. Graham, Dundas, was second in the Barlow, winning 155. Capt. Davis, range officer, endeavored to annoy several members of the team by over-officiousness. He disqualified Richardson for talking back, but the secretary of the National Rifle Association reinstated him.

SHAMROCK II.
She May Start for the United States Next Monday.

Rochester, July 15.—In the trial race today Shamrock II, led till the last leg home when Shamrock I, was helped by a rain squall which did not touch the challenger and enabled the former to close up the separating gap. The Duke which enabled the ex-challenger to finish so close to the Shamrock II, does not, in the opinion of experts in any way detract from what is regarded as a splendid performance on the part of the Shamrock II.

At the conclusion of the trials an immediate start was made for the district sweepstake. Early tomorrow morning her racing canvas will be packed for shipment. After this is done her present spars will be replaced by her ocean rig. It is believed the challenger may possibly start for the other side July 22.

CHILDREN TRIED TO SMOKE ON SUNDAY WITH ILL-EFFECT.
Richmond, Que., July 15.—(Special.)—The Grand Trunk railway station, freight shed and twenty-two dwelling houses at Warwick, twenty miles from here, were totally destroyed by fire yesterday afternoon while the entire population was at church. The railway line was destroyed for a considerable distance, and traffic delayed some hours. The residents had not time to save any of their effects. The loss is estimated at \$75,000. There was practically no insurance. The fire is believed to have originated by children smoking by stealth on the railway premises.

as will lead to the conviction of
anyone stealing the Colonist from
the doors of subscribers.

THE SITUATION ON THE FRASER

The situation on the Fraser seems to
be improved for there has been no at-
tempt at violence. This is doubtless
due to the determined manner in which
the Provincial Chief of Police, acting
under orders from the provincial govern-
ment, has insisted upon the law being
respected. We are not without hope that
the white fishermen, now that they see
that the law must be observed, will
recede from their position and go to work
fishing.

While no outsider can possibly know
how much a canner can afford to pay
for fish, it does not seem reasonable to
suppose that men, with large capital in-
vested in canneries, would take a course
which would have a tendency to render
the investment worse than useless. It
will take a very strong case on the
part of the fishermen to overcome this
presumption, and no one can fairly claim
that such a case has been made out. The
wisest thing the fishermen can do is to
accept the situation as they find it. They
must see that they will not be permitted
to exercise coercion against the Japanese,
and that to set themselves in open
defiance of the law will prove an ex-
ceedingly unprofitable proceeding. Under
these circumstances their best course by
far is to accept the inevitable, and either
go to work fishing or decide upon seeking
for some other employment. For our-
selves, we should much prefer to see
them resume fishing. It would be with
great regret that we would see this fish-
ing industry of British Columbia pass
into the hands of the Japanese. Whether
it shall or not rests with the white fish-
ermen. We believe that if the majority
of them acted upon their own ideas and,
instead of listening to agitators, con-
sulted their own good sense, they would
be back in their boats again before
twenty-four hours have passed. They
must be fully satisfied that their leaders
are blind guides, and that to follow them
is only to meet with disappointment.

TRUSTS AND TRUSTS.

The employees in the tin-working es-
tablishments in the United States have
gone out on strike. They make no com-
plaint as to wages, hours of labor or any-
thing whatever except that the owners
of the several establishments affected
are not willing to "unionize" them all.
The employers say that they are going
to protect the non-union men, who have
contracts with them. The Union lead-
ers say they shall not, and hence have
ordered their followers not to work.
There may be some other details, but
they do not vary the case.

During recent years a great deal has
been said about trusts, which have been
held up as the most unholiest of things.
We are not going to defend them. Per-
haps the majority of people who com-
plain that trusts are oppressing the work-
men, do not really know what a trust
is, in the sense in which the term is
now chiefly employed, but accepting the
ordinarily received definition that it is a
combination of people to control the out-
put and the price of anything, may we
ask if a labor union, which undertakes
to say who shall work and for what
price, is not itself a trust? The unions
are assuming the position which they
condemn, and we do not say wrongfully,
when practised by capitalists. It is not
right that a few rich men, by combin-
ing their interests, should regulate the
production of necessary commodities,
keep the world on short allowance, and
put up prices, while at the same time
reducing the number of men in their
employ. We condemn the creation of
artificial conditions in the world of cap-
ital, believing that the old established
laws of demand and supply should work
freely. But we none the less condemn
the application of the same objection-
able principles to the labor market, and
deny that it is in the public interest

that combinations of men should be per-
mitted to say who shall work, for whom
and for what wage. Unless our civiliza-
tion is to break down, it will be neces-
sary to get away from any such crude
notions of political economy. The in-
dependence of the individual will have
to be restored. There are indications
that action to that end will not be very
long delayed. The general public will
not permit a few irresponsible leaders
to paralyze industry at a moment's no-
tice, no matter whether those leaders
are bankers in Wall street or labor lead-
ers in factories. The evil of combination
is growing so great that it will soon be
necessary to choose between state own-
ership of everything and the old-fashion-
ed freedom of individual action under
which the civilized world made all its
best progress.

A PITIABLE SPECTACLE.

Seattle's latest murder has given rise
to the most pitiable spectacle recently
seen in connection with the administra-
tion of justice. The Seattle Times is
charging the Considine with murder,
calling them the hardest names, citing
what it alleges is evidence to prove their
guilt, attacking the judge who admitted
them to bail and generally endeavoring
to convince the community that they are
two red-handed murderers. It even goes
so far as to allege that the killing of
Mercedith was a part of a conspiracy in
which the whole city government, the law
and order league and a miscellane-
ous lot of other people are mixed up.
On the other hand the Post-Intelligencer
is endeavoring to show that the judge
did right, and it cites the opinions of
a lot of lawyers, all of whom express
views favorable to the Considines. The
result of this must inevitably be that
a fair trial of the accused will be abso-
lutely impossible. But this is less mis-
chievous than the injury being done to
the whole community by such a disgust-
ing controversy, and by the contempt
into which the administration of the law
is being brought.

Hitherto the habit of trying criminals
in the newspapers has been confined
chiefly to San Francisco, so far as the
Pacific Coast is concerned. It is an
abominable habit. No conceivable good
can result from it, and great evil is al-
most sure to follow. The harm done is
not temporary merely. It dulls the sense
of justice in the whole community, and
under no system of jurisprudence can
the courts rise above the level of public
opinion. Cheapen the law and the pro-
cesses of justice and the consequences
are bad in the extreme. Years will not
replace what can be destroyed in a few
months by such a course as the two
leading papers of Seattle are now pursu-
ing.

A correspondent complains that the
White Pass & Yukon railway is not
using much effort to promote the ship-
ment of goods to the Big Salmon coun-
try, which he says promises to be a
placer region of the first rank. We can
hardly understand why this should be
so. The company referred to has greater
interests in the development of the
Yukon and its tributaries than any single
individual can possibly have, and it
seems incredible that it should do any-
thing which will prevent miners from
carrying on their work. Our correspon-
dent, while speaking moderately, is very
much in earnest, and we suggest to the
officials of the railway that they should
look into the matter and see if there
is any ground for complaint. He says
that good pay is being taken out of Liv-
ingstone and Summit creeks, and that
rich prospects have been located on Lake
creek and Martin creek, but he adds
that operations will be at a standstill,
if freight cannot be got in. He also
says that the laws relating to the kill-
ing of game, while reasonable in the
vicinity of Dawson, are not so when
applied to the Salmon River country, and
work a great hardship, as they make it
impossible for the miners to get fresh
meat. The Department of the Interior
should look into this part of the com-
plaint.

Encouraged probably by the fact that
the Colonist complained of a bad piece
of sidewalk in James Bay, a correspon-
dent wants us to say something about
a very bad and dangerous drain near
Head street on the Esquimalt road. We
have already spoken about the neglect
of ordinary sanitary precautions along
that important thoroughfare, and sug-
gest to the Provincial Health Officer
that he should direct an investigation.

Naturally there is some impatience at
the delay in the pacification of the late
South African republics, but the work is
progressing. The constant capture of
Boers, including prominent leaders, must
have an exceedingly discouraging effect
upon those who are yet in the field.
Broadwood's success at Reitz must have
a very potent influence in the Orange
River Colony.

The two thousand machinists, who
have been on strike since May 20 in Cin-
cinnati, have returned to work. What
they gained by it is very doubtful. If a
profit and loss account could be kept of
the financial effect of strikes upon work-
men, the balance would likely be
found against the men by a very large
sum.

The way in which Mr. Chamberlain's
statement about the Canadian landing
place of the Pacific cable was sent out
by the Associated Press made him say
it was at Vancouver. This is just a little
too raw to be wholesome.

The East seems to be having a hard
summer between extreme heat and dis-
astrous rains. A remarkable vagary of
the weather was noted in Trenton, New
Jersey, on Saturday, when during a rain-
storm considerable snow fell.

Russia is again threatened with
famine in the eastern provinces. That
part of the Czar's dominions is on the
verge of becoming uninhabitable.

If labor troubles continue, a declining
stock market may be looked for.

GARFIELD TEA

FOR LIVER AND KIDNEYS
AND IMPURE BLOOD.

ALL DRUGGISTS, 25 CENTS.

For the information of those who do
not think it possible that any kind of
reception can be given at which the
Duke of Cornwall and York can be pre-
sented, except one of a strictly formal
character, it may be mentioned that
when the Duke of Albany (Prince Leo-
pold) paid an official visit to Liverpool,
he was received in the evening in the
Town Hall, which was decorated for the
occasion. The Hall was open to the
public and all the rooms were free to
visitors. The Duke was formally re-
ceived in one of the rooms, and present-
ed with an address, after which such of
those present as desired it, were pre-
sented. He did not remain long in that
room, but went through the building, and
then retired. Except the actual presen-
tation of the address, the whole affair
was informal. There is not much dif-
ference between a visit from the King,
and a visit of a son of the Queen made
at her express direction.

A correspondent wishes us to say
something about the carelessness of
mothers. He relates that a day or two
ago he saw a child of six attempting to
care for one of two years on the shore of
the Lake in the Park. The little one fell
in the water, where it was three feet
deep, and the older could not get her
out. Our correspondent resented the
baby, but if he had not been there,
the chances are all that she would have
been drowned, as it was late and nearly
every one had left the Park. Frequently
people driving find little children, hardly
able to walk, playing in the very centre
of the street. Of course every one will
do all in his or her power to keep from
injuring a little child, even the parent
who is so careless as to let it get in
the way of danger, but this does not
lessen the responsibilities of the moth-
ers, who permit their babies to run
such terrible risks.

Punch has a cartoon representing Can-
ada as a good-looking young squaw,
dressed in a blanket with a feather
head-dress and a rifle. If the gentle
daughter of the forest had been re-
presented in a bicycle suit and a camera,
it would be nearer the mark. As it is,
the cartoon is a libel on Canada and on
the squaw.

The Times says that the Filipinos are
incapable of appreciating the ethics of
war. They are not much to be blamed.
When one talks of appreciating the
ethics of war, the famous receipt be-
ginning: First catch your hare, sug-
gests itself. What are the ethics afore-
said?

Electric cars are the latest addition to
Eastern vehicles. Why has no enterpris-
ing Victorian invested in one of them, or
at least in an automobile? There is no
better place in the world to use one
than hereabouts.

The birth rate in Australia is very low,
and the reason is asked. Possibly the so-
called emancipation of women has some-
thing to do with it.

NELSON ASSESSMENT.

From Nelson Tribune.
The meeting of the court of revision
which was held yesterday morning was
probably the most remarkable of any
court of revision ever held in the pro-
vince in view of the few appeals en-
tered and the very insignificant reduc-
tions made in the roll as returned by
the assessor. In all the reductions made
totaled just \$1,400. Of this sum the re-
bates made from the assessment of
lands amounted to \$1,310, and the re-
maining \$150 represented the amount of
the deductions made from the assess-
ment of improvements.

THE BONDHOLDER.

From Slocan Drill.
R. E. Allen's packtrain has completed
the task of bringing down five tons of
ore from the Bondholder, which is to be
shipped to the Nelson smelter. The ore
was taken out by P. McViears during
his lease on the property and is high
grade. During the packing one of the
horses went over a bluff with a load, but
escaped with a savage cut on the head.
Mr. McViears is shipping the ore in the
Black Prince car.

COMMUNION INNOVATION.

From Nelson Miner.
It was sacrament Sunday at the Pres-
byterian church on Sunday last when a
new feature was introduced in connec-
tion with the event which is the first
attempt of the kind to introduce the
individual communion cup. The intro-
duction of this new form of administering
the church sacrament was such a suc-
cess that the elders of the church have
decided to retain it as one of the reg-
ular forms of service. There were sev-
eral new members added to the church
rolls.

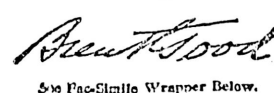

In the world's broad field of battle,
In this age of competition,
If you wish to conquer fortune,
Use good ads for ammunition.
—H. K. Fort.

CURE SICK HEADACHE!

Pay When Cured

This is Dr. McLaughlin's offer to
Weak Men, Rheumatics,
Dyspeptics, Men with Lame
Backs, Weak Kidneys, Lost
Vitality, Varicose Veins, Wasting
of Vital Strength, Sciatica,
Constipation, "Come and Go"
Pains, and to Women with
the Weaknesses Peculiar to
their Sex.

Give me a man broken down with
indiscretions—one who has lost the
very essence of health—and I will
simply by pumping a vital stream of electricity into his body in the
right way while he sleeps.

Dr. McLaughlin's Electric Belt

Does wonders in a few applications. It arouses all the dormant energies,
develops muscular and nerve life and restores the feeling of youth,
courage and manhood. It makes men over again. It makes perfect
men of the puniest, weakest specimens of "half men."

Any man or woman who will accept my appliance
and buy when cured. I ask no pay in advance.

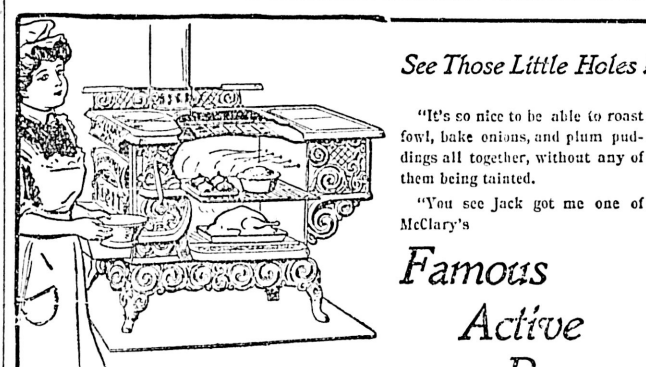

Are you sick? Are you in pain? Are you a Weak Man? Are you tired of doctor-
ing and paying out money without result? Then come to me or write to me. I AM
THE ONLY MAN IN THE WORLD WHO HAS CONVINCED ENOUGH IN HIS
REMEDY TO WAIT FOR HIS PAY UNTIL YOU ARE CURED.

I give a free test to all who call. If you can't call I will send you my beautifully
illustrated book with full information free. Call or write now. Don't delay.

Dr. M. C. McLaughlin, 106 Columbia Street
Seattle, Washington.

NOTE WE PAY DUTY

See Those Little Holes!

"It's so nice to be able to roast
fowl, bake onions, and plum pud-
dings all together, without any of
them being tainted."

"You see Jack got me one of
McClary's

Famous
Active
Ranges

Last week, and I've been testing it. All the roasting fumes escape through those little
holes in the back of the oven, and so keep the air pure.

"And you'd be surprised at the little coal it burns. It's just a dandy Range, and
I'll cook Jack lots of good things with it."

This is the kind of talk that has made the FAMOUS ACTIVE the most popular
Range in Canada.

Made in 42 styles and sizes.

Free Pamphlets from our local agent or nearest house.

able.

Child Pianist.—Tonight in the First
Presbyterian church hall the celebrated
children Paolo and Karla Schramm,
whose playing and compositions have de-
lighted audiences all over the continent
of Europe and America, will give Victo-
rians an opportunity of listening to their
wonderful music. Ever since her re-
covery from the severe illness which
aged Paolo Schramm has played be-
fore immense audiences wherever she has
visited. At each entertainment these de-
mons of doing so may prepare a pro-
fusion of music as a theme for improvisa-
tion. One will be selected and Paolo
will improvise upon it. These themes
must be prepared before the first inter-
val, during which they will be collected.
This is a chance that local musicians
will have only once in a lifetime, and it
is to be hoped that it will be fully taken
advantage of. Concert at 8 prompt.
doors open at 7.30.

package.

Annual Church Parade.—The members
of the Royal Dauntless and Fernwood
lodges, C. O. O. F., together with visit-
ing brethren, held their annual church
parade on Sunday. They met at the hall
address Drayton Lodge, Broad street,
at 10 o'clock, and after donning the of-
ficial regalia of the Canadian Order of
Ogg Fellows, marched through the prin-
cipal streets of the city, headed by the
band of the Fifth Regiment, to the
Metropolitan church, where a devout
service was delivered by the Rev. El-
liott S. Rowe upon the Brotherhood of
Man. After service, the procession was
formed and marched back to the hall,
where subsequently votes of thanks to
the preacher, the band, and others
closed a successful church parade to a
close.

CARIBOU ON THE
NORTHERN ISLANDS

Resident of Queen Charlotte
Offers to Prove That Animals
Are There.

Some months ago the provincial de-
partment of agriculture received an in-
quiry from the United States depart-
ment of agriculture regarding the truth
of a statement that caribou were to be
found on Queen Charlotte Island; whether
a caribou head had been sent over to
the islands to Mr. Wm. Charles, of Vic-
toria, and whether the department could
verify the existence of such head. Mr.
Anderson, deputy minister of agricul-
ture, was unable at the time to secure
the required information and he referred
the matter to the Colonist, hoping that
some reader of the paper would be able
to throw some light on the subject. The
Colonist's query: "Who Knows?" elicited
a letter from "One Who Knows," who
said there were no caribou nor deer on
Queen Charlotte Islands; that a few had
been taken there by Indians from the
mainland and turned loose, but that the
animals had been killed by dogs. This
was regarded as rather an unlikely story,
as the Indians are not as rule over the
breeding or propagation of wild ani-
mals, and the difficulty of transporting
the brutes across the straits would be
attended with more difficulty and danger
than they would care to incur.

Subsequently, however, the head allud-
ed to was identified and it is now in the
possession of the Natural History So-
ciety and may be seen in the society's
room in the parliament building.

As a sequel, Mr. Anderson yesterday
handed the Colonist the following letter,
which positively verifies the existence of
caribou on the islands:

Masset, Queen Charlotte Island,
July 20, 1901.

J. R. Anderson, Esq., Deputy Minister
of Agriculture, Victoria, B. C.

Sir: I noticed a paragraph in the Col-
onist under the heading "Who Knows?"
re the existence of caribou on Queen
Charlotte Islands. I have lived here
20 years and have seen the animal quite
often. I have made diligent in-
quiries amongst the Indians, and have
gained the following information:

1. Three years ago an Indian named
Shakway saw a female caribou feeding
near a lake up Vincho sound, but did
not kill it, although he fired twice. Yet
grooms, another Indian, was with him at the time.

2. This March a man named Stinga,
with his two sons, saw the tracks of a
big herd near the head waters of Ma-
lon river, near Vincho sound.

3. Men who were with the man who
killed the two referred to in the Colonist
are ready to show me the place where
he killed them. This is near Lithum, up
Vincho sound.

4. The Indians refused to eat the flesh
of the caribou and left their carcasses
Mr. Mackenzie then paid them to go and
bring the meat in and kept it for his
own use.

5. As the Indians are not interested
in the killing of caribou, they refusing to
eat the meat, and there being no market
for the antlers, etc., they consequently
do not hunt them. They say they are
afraid to go up the mountains and into
much danger for no recompense, there-
being, according to their traditions, one-
eyed and horned hobgoblins, spirits, etc.,
to be met with on the mountains which
they frequent.

In order to be sure that caribou do ex-
ist, the United States department of ag-
riculture ought to unite with that of
British Columbia and make a grant
of \$250 or over expenses. The Natural
History Society of British Columbia
ought also to assist. I would then get
three good hunters, and visit every local-
ity where they are reported to exist and
make a thorough search, but do not
take about six months. Should we get out
the heads would be kept and shipped to
your department. I could not go until
about the middle of September, when my
official duties as customs officer and
fishery overseer would be over until De-
cember.

I am, your truly,
C. H. HARRISON, S.M.

"WHITE WINGS" RACE TRACK.

From Chilliwack Progress.

For the past two years the people of
Chilliwack have talked about construct-
ing a first class race track, but up to
the present time no company has been
formed. It will be welcome news to the
lovers of good horses, in Chilliwack,
as well as in the whole western portion
of B. C. to know that J. T. Wilkinson
of the Province, has decided to build
one, on his Village Farm, right within
the limits of the town of Chilliwack. He
arrived from the interior Saturday, and
stated that as soon as he gets all par-
ticulars from the American Trotting as-
sociation, Chicago, work will be com-
menced. The track is to be constructed
according to the rules of the association,
on which races under the auspices of
the A. T. association will be held. No
root will be spared to make it the best
in the province. This goes without say-
ing, for what "Wings" Wilkinson takes
in hand, is always well done. He owns
the largest string of standard-bred hor-
ses in British Columbia, which won no
less than 15 prizes at the Royal exhibi-
tion last fall. The quality of the land
is everything that can be desired for a
speedy track, on which horses can be
worked the year round. Mr. Wilkinson
intends to erect stables on the ground,
and offer every inducement for horse-
men to come to Chilliwack. "The Gar-
den of British Columbia" and develop
their horses. Many Chilliwackers have
already promised to supply teams and
men to help the enterprise along, which
will undoubtedly bring many new res-
idents to our thriving town.

INDUSTRIAL EXHIBITION.

Hall Committee Discuss Plans of the
Main Building.

The hall committee of the Exhibition
association met yesterday afternoon in
the committee room at the city hall. Mr.
Norris acted as chairman in the absence
of Mr. Price. Plans of the ground and
second floors of the main building were
submitted by Mr. Morley, who had
been requested to prepare them at last
meeting. The ground floor has been
divided into 30 generously large spaces,
with 8-foot passages intersecting; the
second floor contains 32 spaces, with 7
foot passages.

The committee had a long discussion
as to the best way of allotting spaces
to exhibitors, final decision being left
over till a future meeting, as applica-
tions kept coming in daily.

A sub-committee consisting of Messrs.
Seabrook, Peabody and the secretary
was appointed to call upon the principal
manufacturers of the city to secure their
co-operation in the exhibition.

The hall committee will meet again
next Monday at 4 o'clock p. m.

The secretary has opened an office in
the market building, next to the Central
Fire hall, where all enquiries regard-
ing the exhibition will be cheerfully
answered.

SUCCESSFUL STUDENTS.

British Columbians Who Passed the Sec-
ond Year Examination at McGill.

The following British Columbians suc-
cessfully passed the second year exam-
inations held last April at McGill Uni-
versity:

Mining Engineering—A. G. Langley
and W. D. Pemberton, Victoria; R. Mus-
grave, Duncan, Electrical Engineering—
A. Foreman, Vancouver; and in chemis-
try, W. N. Mcgrath, Duncan.

Of the foregoing Messrs. Langley and
Pemberton accompanied the mining por-
tion of the university which arrived here
last May. This expedition, as it may be
called, is an annual affair, and is under
the management of the professor of the
mining course, and accompanied by sev-
eral professors, who give lectures on
route. It travels in its own private car
and during its trip to the West visited
nearly every mine of importance in the
province. The majority of the students
stopped off in different mining camps
where, for the purpose of obtaining prac-
tical experience, they went to work as
ordinary miners. Among this number
Messrs. Langley and Pemberton have
been doing their share of the work, the
former in the Old Ironsides at Phoenix,
and the latter in the Mother Lode near
Greenwood.

IN THE COURTS.

Judgment in Urquhart vs. Urquhart—
Other Cases Heard.

In the Supreme court yesterday, the
arguments in the case of Urquhart vs.
Urquhart were concluded, and Mr. Jus-
tice Irving held that the plaintiff was
entitled to an account with costs against
defendants. A. G. Anderson, and L. P.
Duff, K. C. for plaintiff; S. Perry Mills,
K. C. and F. Peters, K. C. for defend-
ants.

Saunders vs. Russell was then proceed-
ed with in this case plaintiff seeks a
decree of foreclosure on mortgage ex-
ecuted by defendant, and the latter pleads
infancy when the deed was executed.
Lawson for plaintiff, Gregory for defend-
ant.

Justice Drake heard Clarke vs.
Cummings et al., in which the defend-
ants, trustees of an estate, sought au-
thority from the court to carry out an
order in agreement with the plaintiff. An
order was made accordingly.

COUNTY COURT.

There will be a sitting of the County
court on Thursday next, 18th inst.

DIDN'T MEAN IT.

A Good Joke on the Duke of Argyll.

Women are sometimes accused of lack-
ing a sense of humor, but a casual slip
of the tongue on Thursday while the
Duke of Argyll was addressing a draw-
ing room meeting at Lowther Lodge was
instantly and warmly appreciated.

The Duke had said that after the
Boer war it would be an excellent thing
if Boer and Briton were to intermarry.
"We want the Briton to marry a Boer
girl," said the Duke, "but we want him
to have an English wife as well."

The peal of laughter which greeted this
ambiguous declaration led the Duke to
correct himself, which, blushing, he
did, endeavoring to explain in plain
haste what he meant. The explanation
intensified the merriment. It is the joke
of the season, and won't be forgotten
for a long time, if ever.

Baby Progress Guaranteed

When LACTATED FOOD
Is Used.

STATEMENT OF AN EMINENT
PROFESSIONAL MAN.

The health of the baby directly de-
pends on the quality of the food it re-
ceives. Today, as in past years, thou-
sands of babies are suffering from ail-
ments brought on by improper feeding.
Sir Charles Clark once said: "The igno-
rance of mothers in feeding their child-
ren is worth a thousand pounds a year
to me."

It is a fact worthy of notice that the
healthy, bright and fat babies of today
are all being brought up on life-giving
Lactated Food. No other food on the
market has such a reputation and no
other has been so highly recommended
by medical men. Every mother who
values the health and safety of her little
one should give Lactated Food a week's
trial. It quickly becomes the home
friend. All druggists sell Lactated
Food.

THE WEATHER.

Meteorological Office,
 Victoria, July 15-8 p. m.
 SYNOPTIC.
 An ocean low barometer area is slowly crossing this province. It is causing rain in Kootenay and on the Washington coast, and will cause a general rain fall over the North Pacific slope. Fairer weather will follow, due to an approaching high barometer area now off the coast. From the Rockies eastward to Manitoba the weather is fair and moderately warm.

 JONES, ORRAN & CO.,
 Dominion Government Auctioneers.

referred to in clause two. The question should be enquired into and some definite action taken.

Ald. Yates said the by-law should be enforced.
 Ald. Brydon had heard that the premises were kept in perfect cleanliness. The owner was the first pre-emptor in Spring Ridge, he had lived there for years, and if driven out of the city it would greatly ruin him. He advocated the council visiting the premises themselves and judging of the conditions.
 Ald. Yates moved, seconded by Ald. Cooley, that the clause stand over. Carried.
 On motion clause three was not adopted.

FOR SALE

A complete Assaying Plant on easy terms.

Buy

Mendocino Oil Stocks

(CALIFORNIA)

25c. per Share

May be worth \$25,000 per share in 12 months.
 There is going to be the biggest movement in oil and oil stocks America has ever seen. In Los Angeles alone are over 200 oil wells. Land worth nothing a few years ago is sold as high as \$10,000 per acre. The company has 120 acres good oil land. Mail your orders.

Meeting of City Council

A Deluge of Letters and Petitions on Variety of Subjects.

Difference of Opinion Between Sanitary Inspector and Ratepayers.

The regular weekly meeting of the city council was held last night, His Worship, Mayor Hayward, presiding. The aldermen, with the exception of Ald. Beckwith, were in attendance.

COMMUNICATIONS.

The following communications were received and dealt with:
 From W. B. Moreshy, secretary of the Royal reception committee advising the council that a public meeting of citizens had passed a resolution that the expenses of the reception should be paid out of the general revenue of the city.
 An invitation to attend the Vancouver street fair was received, and the clerk was instructed to thank the Vancouver Street Fair management.

The city superintendent of public schools, asking the council to take steps to widen Fernwood road to 60 feet in front of the new high school site.
 Referred to city engineer for report.
 Several applications for employment on the new city works were laid on the table.

Lee Chong and Lee Wong asking for a sidewalk in front of their new building on Esquimalt street.
 Referred to city engineer for report.
 From W. J. Penderay calling attention to the excellence of the paint manufactured by his company and asking that they be given the preference in awarding the contract for painting the exhibition building.

Referred to the purchasing agent with instructions to act.
 W. Chaloner complaining of the state of a sidewalk on the corner of Fort street and Linden avenue, and asking for a permanent cement walk.
 Referred to the city engineer.

E. Elworthy, secretary Board of Trade, notifying the mayor that a meeting of the gold purchasing committee would be held at 11 o'clock today. It was resolved that the finance committee and Ald. Yates attend to represent the city.
 Mr. Bain, 134 Chatham street, asking that the name of the street be changed. Referred to the committee having the rearrangement of street names in hand.

F. B. Kittie, for the S. P. C. A., calling attention to the fact that the city workmen did not observe the by-law regarding props to relieve straining horses or loads.
 Referred to the city engineer.

Thos. Reddy, asked to be furnished with the street line of Craigflower road. Laid on the table.
 J. N. Freeman calling attention to condition of a drain on Andrew street. Referred to city engineer.

G. A. Smith, regarding his water trough, corner Government and John streets, having been removed and offering to furnish a wooden trough and pay for water. Referred to water committee.

REPORTS.

The sanitary inspector presented the following report:
 Gentlemen: I have the honor to submit the following report for your consideration, communication of F. A. Jackson, complaining of a nuisance on Avalon road. I inspected the street between the 1st and 10th of February, and found two water closets connected with the drain. I served notices on the owners on 13th February, called about two weeks after and still found one closet connected. The plumber has got orders not to disconnect the closet and said this would be done forthwith. I have now inspected the houses and the closets are both disconnected.

2. Re application of Thomas Alexander for permission to keep 18 milch cows within the city limits. I have inspected this application previously regularly for the last two years, and have always found same in a fairly sanitary condition. I inspected said premises on the 1st of April and found them in a first class sanitary condition, and cows had abundance of pure water, both at the barn and pasturefield, and have no chance of drinking filthy water either going or coming and I do not think that his license should be cancelled unless the clause in Milk By-law, prohibiting more than six cows to be kept by one owner within the city limits is strictly adhered to and enforced.

Communication from Noah Shakespeare complaining of stench at the outlet of the Work Estate surface drain at Rock Bay. I may say that in a report I submitted two years ago last year, I suggested that a box be constructed to carry discharge from the surface as far out as low water mark, and if this improvement were carried out, the ground filled in, which I understand is city property, I have not the least doubt but that would remedy the nuisance complained of, as at high tide the odor emanating from discharge of surface drain is scarcely perceptible.

The report was considered clause by clause.
 Clause one was adopted, a copy to be sent to Mr. Jackson, and a loss to know what to believe regarding the matter.

SHOT BY CONSTABLE

C. P. R. Special Wounds an Italian in the Abdomen.
 Port William, July 14.—(Special)—A shooting occurred at Heron Bay yesterday, in which the principals are an Italian and a C. P. R. special constable. The Italian, L. Giovanni, was one of the number brought up by the company to replace striking trackmen, and when on the ground refused to work. In an altercation that followed, the constable, a man named Proulx, discharged a pistol, the ball striking the Italian in the abdomen and inflicting a dangerous wound. Giovanni was brought to Port Arthur and placed in the hospital, and Proulx is now under arrest and will arrive on No. 1 train tonight to await the result of the wound.

STODDARD JEWELLERY STORE, 63 Yates street.

KETTLE RIVER

RAILWAY WORK

Several Hundred Men Are Employed—Sections Now Under Contract

From Our Own Correspondent.

Grand Forks, July 12.—Jim Hill's invasion of the Boundary district has commenced. During the past week several hundred laborers, started work on the proposed Great Northern railway extension from the Columbia river to Vancouver. That portion of the road in Canadian territory will be built under the so-called Victoria, Vancouver & Eastern railway charter, owned by Messrs. Mann & Mackenzie, of Toronto. The Canadian firm and the Great Northern are partners in the deal. December will see the railway in operation west from the Columbia river 60 miles to Midway, B. C., as well as branch lines to Republic, Wash., and Phoenix, B. C., camps, 20 and 26 miles long, respectively.

The sections now under contract are as follows:

Maricus, Wash., to Cascade, B. C., 26 miles.

Cascade, B. C., to Carson, B. C., 15 miles.

Carson, B. C., to Midway, B. C., via Curlew, Wash., 25 miles.

Curlew, Wash., to Republic, Wash. (branch line), 20 miles.

Carson, B. C., to Phoenix, B. C., via Summit camp (branch line), 26 miles.

The route extends from Maricus, Wash., a point on the Spokane Falls & Northern, at the confluence of the Kettle and Columbia rivers, up the valley of the Kettle river to Midway, B. C. The grade is only six-tenths of one per cent. The international boundary is crossed at Cascade, B. C., Carson, B. C., and Midway, B. C. The branch lines to Republic, Wash., and Phoenix, B. C., will tap two of the richest mineral camps in the Pacific Northwest.

The distance from Midway, B. C., to Vancouver, traversing the Okanagan and Similkameen districts, is 335 miles, and engineering parties are now engaged in locating the line. Construction work, however, on that section will not be started until next spring. The Canadian Pacific also has engineering parties in the field, and contemplate building over the same route.

EVERY WOMAN NEEDS IT.

There are times when every woman is tormented by itching skin and would give anything for relief. There is a preparation, known as Dr. Chase's Ointment, which is a prompt relief for these sufferings. Women prize it both for their own use and for its wonderful effectiveness in curing Baby Eczema, scall head chafing, and the various skin diseases of childhood.
